

Amplitude™ Kappa™

Polyester/lyocell nonwoven wipe

Description

A special hydroentangling process washes the Amplitude Kappa fabric, made of 58% polyester and 42% lyocell, to provide an exceptional level of cleanliness, sorbency and softness. These wipes are used for wiping delicate surfaces and sensitive components, as well as for other critical applications.

Features and Benefits

- Excellent cleanliness
- Low levels of fibers and particles
- Highly sorbent with water and solvents
- Soft texture

Applicability

The information presented here is applicable to the part numbers shown below as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.
