

SATWipes® SAT-C1-7030 Wipe

Saturated nonwoven cellulose/polyester wipes in center-pull dispenser

Description

The SATWipes C1 consists of a roll of (100) 6"x9" saturated wipes which are dispensed through a center-pull canister. The wipes consist of nonwoven cellulose/polyester fabric that is hydraulically entangled creating a soft, durable, and clean wiper. The saturation of 70% alcohol and 30% deionized water provides a safe and mild cleaning solution. Refill rolls are available so the dispenser canister may be re-used.

Features and Benefits

- Clean, durable nonwoven wipers
- Consistent solvent application and use
- Up to 35% reduction in solvent use
- Increased safety
- Eliminates solvent bottles
- Reduces solvent handling
- Convenient and re-usable pop-up dispenser

Applicability

The information presented here is applicable to the part numbers shown below, as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.
